

Hi, I'm

MATTHEW GRIFFIN

Why should you hire me?

I enjoy tinkering with technology. I've been an avid computer user for quite some time now and I am still learning new things everyday. I started my internet journey back in 2014 by creating YouTube videos and playing games like Minecraft.

Fast-forward to today, and I am now a full-stack developer working on multiple projects, along with some other pretty snazzy skills under my belt. Here are some of them:

Digital Expertise

- Video & Sound Editing
- Shooting and Producing Video
- Photography
- Adobe Creative Cloud Suite
- Computer Management
- Programming and Development

Live Production

- Lighting & Rigging
- Sound Mixing
- Audiovisual
- Stage Management
- Event Coordination & Logistics

Other Skills

- Customer Service
- Workplace Health and Safety
- Japanese Language
